

U.S. AIR FORCE

METRICS/PAPERLESS REPORTING: UPDATE TO FRB

Presented for SAF/AQCA by Marie Walker, 10 April 2003

New Air Force point of contact for metrics is Marie Walker

- Phone - appears on metrics home page (703-588-7048 or 425-7048 DSN)
- Email - marie.walker@pentagon.af.mil

Other new developments

- Process has been simplified. Starting with the quarter ending 31 March 2003, 3 versus the original 22 metrics must be submitted by Contracting, with more reporting picked up by FM and DFAS. Now required of Contracting:
 1. Requirements received
 2. How requirements received (manual/electronic/automated)
 3. Requirements posted to EDA
- Metrics on Navy web site are the only metrics required -- no separate requirement to collect WAW data, although may need to validate aggregate statistics sometimes.
- Quarterly metrics must be reported to DCMA by the 20th day of the first month of the next quarter, although some Services report monthly by choice or policy.

AF Contracting - Turning Dollars and Desires into Dominant Aerospace Power

DCMA is trying to centralize metrics collection. Until metrics can be
